LA DOLCE VITA

*„ciao amore,
ciao amore,
ciao.“*

LA DOLCE VITA

Im Frühjahr / Sommer 2024 widmen wir uns dem süßen Leben.

Auf einer Vespa entlang der Amalfi Küste, der süße Duft von Bougainvillea liegt in der Luft, der Wind wirbelt durch die Haare und die Sommersonne wärmt sanft die Haut. Ein Panorama aus Bergen und Tälern, eingerahmt von lila Blüten, leuchtend gelben Zitronenbäumen und dem im Sonnenlicht glitzernden Blau des Ozeans.

Wir machen Halt in Positano, um uns herum das pulsierende Leben. Es wird gegessen, getrunken, getanzt und gelacht.

Ciao amore, ciao schallt es durch die kleinen Gässchen. Das unverkennbare Geräusch von Begrüßungsküsschen ist zu hören.

Wir nehmen in einem kleinen Café Platz. Der freundliche Kellner bringt einen Espresso und ein Delizie al limone. Die kalte Zitronencreme zergeht auf der Zunge und für einen Moment steht die Welt still.

„La dolce Vita“, könnte nicht entzückender sein.

In the spring / summer of 2024 we indulge in the sweet life.

On a Vespa along the Amalfi coast, the sweet scent of bougainvillea is in the air, the wind swirls through the hair and the summer sun gently warms the skin. A panorama of mountains and valleys framed by purple flowers, bright yellow lemon trees and the blue of the ocean glistening in the sunlight.

We stop in Positano, surrounded by pulsating life. Food, drinks, dancing, and laughter define the image of this picturesque cliff town.

Ciao amore, ciao echoes through the small alleys. The unmistakable sound of greeting kisses can be heard.

We take a seat in a small café. The friendly waiter brings an espresso and a delizie al limone. The cold lemon cream melts on the tongue and for a moment the world stands still.

La dolce vita, could not be more delightful.

PHILOSOPHY

Wir sind auf einer Reise zu mehr Nachhaltigkeit

Wir arbeiten klimaneutral!

In Zeiten großer klimatischer Herausforderungen betrachten wir als Unternehmen es als unsere Pflicht, uns aktiv für einen bewussten Umgang mit Ressourcen einzusetzen. Von der Wahl unserer Materialien und Produktionspartner bis hin zur Logistik versuchen wir möglichst bewusst und vorausschauend zu agieren. Die durch unser Unternehmen entstandenen Emissionen fassen wir jährlich in einer Klimabilanz zusammen. Mithilfe unserer Klimapartners „Fokus Zukunft“ kompensieren wir diese durch die Unterstützung ausgewählter Klimaprojekte, die sich sowohl für die Umwelt als auch für soziale Aspekte einsetzen.

We work climate neutral!

In times of great climate challenges, we as a company consider it our duty to actively promote the conscious use of resources. From the choice of our materials and production partners to our logistics, we try to act as consciously and foresightedly as possible.

We summarise the emissions generated by our company in an annual carbon footprint.

With the help of our climate partner „Fokus Zukunft“ (Focus on the Future), we compensate for these by supporting selected climate projects that are committed to both environmental and social aspects.

ZERTIFIZIERUNGEN

Verantwortungsbewusstsein bedeutet für uns als Unternehmen unsere Kunden möglichst transparent und zuverlässig über unsere Rohstoffe und Partnerschaften aufzuklären.

Die Zertifizierung unserer Produkte, deren Materialkomponenten sowie unserer Verpackungsmaterialien sind daher wichtige Pfeiler unserer Firmenphilosophie. Wir arbeiten ausschließlich mit vertrauenswürdigen und weltweit bekannten Prüfstellen zusammen.

For us as a company, responsibility means informing our customers as transparently and reliably as possible about our raw materials and partnerships.

The certification of our products, their material components and our packaging materials are therefore important pillars of our company philosophy. We work exclusively with trustworthy and globally known testing bodies.

AMFORI ZERTIFIKAT

Die amfori BSCI ist eine führende Unternehmens-Initiative zur Verbesserung der Arbeitsbedingungen in globalen Lieferketten. Mit dem amfori BSCI-Verhaltenskodex können Unternehmen ihr Geschäft langfristig festigen und sie senken damit die Risiken auch für Geschäftspartner und Investoren, Darlehensgeber oder Versicherer.

DIN ZERTIFIKAT

DIN CERTCOs DIN-geprüftes Programm für die Zertifizierung biobasierter Produkte. Produkte, die ganz oder teilweise aus biobasierten Rohstoffen hergestellt werden, können nach diesem System zertifiziert werden, wenn diese mindestens 50% organisch sind und mind. 20% biobasierten Kohlenstoff enthalten.

GRS ZERTIFIKAT

Der GRS verfolgt das Ziel, den Anteil an recycelten Materialien in einem Produkt zu erhöhen. Der Standard ermöglicht es Unternehmen, den genauen Anteil an recyceltem Material in einem Produkt zu erfassen und durch die Produktionskette weiter zu verfolgen. Der GRS enthält zudem Anforderungen zu den verwendeten Zusatzstoffen bei GRS Produkten sowie Richtlinien zu Umweltmanagement und sozialer Verantwortung im Unternehmen.

RCS ZERTIFIKAT

Der RCS (Recycled Claim Standard) ist ein Standard zur Rückverfolgbarkeit recycelter Rohstoffe innerhalb einer Lieferkette. Der Standard wurde von der Arbeitsgruppe „Materials Traceability“ im Rahmen der OIA-Arbeitsgruppe „Sustainability Working“. Der RCS basiert auf den Anforderungen an die Produktkette des Content Claim Standard.

Für den RCS wird anhand einer Überprüfung der Informationen und der Produktkette unabhängig kontrolliert, ob ein Endprodukt die genaue Menge des angegebenen Recyclingmaterials enthält. Der RCS ermöglicht damit die transparente, konsistente und umfassende unabhängige Bewertung und Überprüfung der Richtigkeit von Angaben zum Inhalt von Recyclingmaterialien in einem Produkt.

GOTS ZERTIFIKAT

Der Global Organic Textile Standard (GOTS) ist ein weltweit angewendeter Standard für die Verarbeitung von Textilien aus biologisch erzeugten Naturfasern und damit ein wichtiges Textilsiegel. Er definiert umwelttechnische Anforderungen entlang der gesamten textilen Produktionskette sowie Sozialkriterien.

OEKO-TEX ZERTIFIKAT

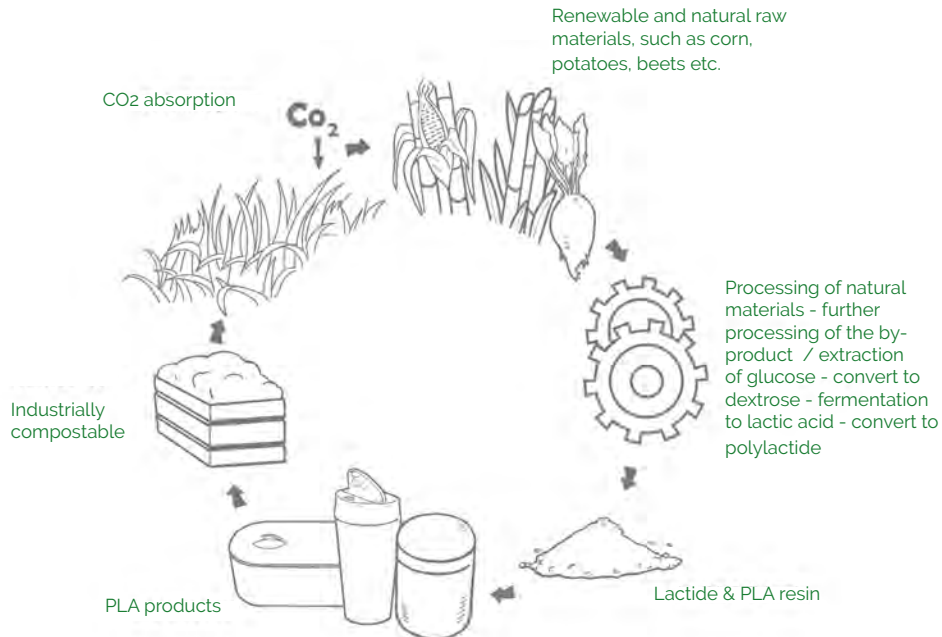

OEKO-TEX® STANDARD 100 gehört zu den weltweit bekanntesten Labels für schadstoffgeprüfte Textilien. Bei OEKO-TEX STANDARD 100 ausgezeichneten Produkten, können Sie sich darauf verlassen, dass alle Bestandteile dieses Artikels, d.h. auch alle Fäden, Knöpfe und sonstige Accessoires, auf Schadstoffe geprüft wurden und der Artikel somit gesundheitlich unbedenklich ist.

FSC ZERTIFIKAT

Das FSC-Siegel des Forest Stewardship Council (FSC) ist ein internationales Zertifizierungssystem und gewährleistet, dass das verwendete Holz aus nachhaltiger und umweltgerechter Waldbewirtschaftung stammt.

Das Label findet sich auf Holz- und auf Papierprodukten.

DE

Der Biokunststoff Polylactid, PLA, ist ein Material, das aus nachwachsenden Rohstoffen anstelle von fossilen Brennstoffen hergestellt wird. Das Endprodukt PLA entsteht aus einem Nebenprodukt der Verarbeitung von Mais, Kartoffeln, Rüben und anderen natürlichen Materialien, die große Mengen an Stärke (Glukose) enthalten.

Glukose wird zur Herstellung von Milchsäure benötigt.

Die Grundlage des Kunststoffs PLA sind Milchsäuren, die durch verschiedene chemische Prozesse zu Granulat verarbeitet werden.

PLA ist biologisch abbaubar und industriell kompostierbar nach DIN EN 134.

Das Material hat viele Vorteile gegenüber herkömmlichem Kunststoff.

Zum einen schon es die natürlichen Ressourcen, da es aus pflanzlichen Nebenprodukten gewonnen wird, die sonst entsorgt werden müssten. Zum anderen reduziert es den CO₂-Ausstoß, weil es bei der Herstellung weniger Energie benötigt und bei der Entsorgung kein Methan freigesetzt wird.

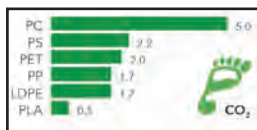

EN

The bioplastic polylactide, PLA, is a material produced from renewable raw materials instead of fossil fuels. The end product PLA is created from a by-product of processing corn, potatoes, beets and other natural materials that contain high amounts of starch (glucose). Glucose is required for the production of lactic acid. The basis of PLA plastic is lactic acid, which is processed into granules by various chemical processes.

PLA is biodegradable and industrially compostable according to DIN EN 134.

The material has many advantages over conventional plastic.

On the one hand, it conserves natural resources because it is obtained from plant by-products that would otherwise have to be disposed of. Secondly, it reduces CO₂ emissions because it requires less energy to produce and no methane is released during disposal.

kg CO₂-equivalent per kg polymer

OBJECTS OF DESIRE

Eine Cocktailparty unterm Sternenhimmel,
sizilianische Villen mit opulenten, samtüberzogenen
Möbeln, Champagner und Musik...

A cocktail party under a starry sky, Sicilian villas with
opulent, velvet-covered furniture, champagne and
music...

Dem Thema „Objects of desire“ - Objekte der
Begierde lag der 1960 erschienene Schwarz-weiß
Film „La Dolce Vita“ von Federico Fellini zugrunde.
Inspiriert vom Stil, dem Glamour und den
rauschenden Parties Fellinis entstanden hochwertige
Produkte mit zeitloser Anmutung.
Elegante dunkle Farben treffen auf ausgesuchte,
warme Rosa-, Rot- und Auberginetöne.
Matte Oberflächen kontrastieren Glanz- und
Perlmutteffekten und schaffen sowohl einen
visuellen als auch einen haptischen Erlebnismoment.

The theme of "Objects of Desire" was based on the
1960 black-and-white film "La Dolce Vita" by
Federico Fellini.
Inspired by the style, glamour and glittering parties
of Fellini, high-quality products with timeless appeal
were created.
Elegant dark colours meet selected, warm shades of
pink, red and aubergine. Matt surfaces contrast with
gloss and nacre-effects to create both a visual as
well as a haptic experience.

DAILY DELIGHTS

Ein Sommer an der Amalfi-Küste, Zitronensorbet, das auf der Zunge zergeht, ein Spaziergang durch kleine, blumenbewachsene Gässchen, in der Ferne das blauschimmernde Meer...

Das Thema „daily delights“ zelebriert die Schönheit des Alltäglichen.

Inspiziert von der Fülle an Farben und Formen der Natur spiegeln die entstandenen Designs pure Lebenslust wieder.

Naive, psychedelische und verschwommene Blumenmotive treffen sowohl auf zarte als auch auf ausdrucksstarke Farben.

Die Kollektion kombiniert beerige Töne, frisches Zitronengelb, sattes Grasgrün und leuchtende Blautöne zu einem Feuerwerk der Farben, das alle Sinne anspricht.

A summer on the Amalfi coast, lemon sorbet that melts in your mouth, a walk through small flower-covered alleys, the blue shimmering sea in the distance...

The theme „daily delights“ celebrates the beauty of everyday life and objects.

Inspired by the abundance of colours and shapes of nature, the designs reflect pure joie de vivre.

Naïve, psychedelic and blurred floral motifs meet both delicate and expressive colours.

The daily delights collection combines berry tones, fresh lemon yellow, rich grass green and bright blue tones to a firework of colours that appeals to all the senses.

CHIC.MIC CUSTOMIZED

SUSTAINABILITY & CUSTOMER ENGAGEMENT

Vorausschauend zu handeln, Ressourcen zu schonen und zuverlässig höchste Qualität von der Planung bis zur Fertigstellung zu bieten, ist unsere DNA. Mit den maßgeschneiderten Produkten von chic.mic möchten wir noch einen Schritt weiter gehen und gemeinsam mit Ihnen Produkte schaffen, die Kunden ansprechen, ihnen einen Mehrwert bieten und die Aufmerksamkeit erhöhen. Gerne informieren wir Sie persönlich über unsere Individualisierungsangebote.

Acting with foresight, conserving resources and reliably offering the highest quality from planning to completion is our DNA. With chic.mic customized products, we would like to go a step further and work with you to create products that engage customers, offer them added value, and raise awareness. We would be pleased to inform you about our customization offers.
